

SUPPORTING ONLINE ACTIVITIES

B Satish Kumar, the Managing Director of Steel Exchange India, is a B Tech from Regional Engineering College, Kurukshetra. He has done his Masters in Business Administration from the University of Queensland, Australia. Kumar has over 18 years of industry experience and worked in senior positions in the white goods and engineering goods manufacturing sector, oil rig and transport business, handling

field level projects in logistics, value chain management, functional applications of ERP solutions in the engineering industry and oil industry segments and operating these as a profit centre. He has rich experience in international business development in the software industry and is widely travelled and brings a wealth of experience in change management, negotiations, strategic leadership and planning. Kumar is the visionary founder of <http://www.steelexchangeindia.com/> a B2B portal and one of India's pioneering portals for the steel industry.

He built a solid brick and mortar model by promoting Steel Exchange India to support the online activities of the steel trade through the portal. Steel Exchange India is today one of the most successful Indian e-commerce companies having long term MOUs with major players in the Indian steel industry.

LEADING INFORMATION SECURITY

Avinash W Kadam, Advisor, ISACA India Task Force, is a leading authority on Information Security. He has more than four decades of experience in Information Technology Management, Information Systems Audit, Information Security Consulting and Training.

Kadam has served as Vice President of ISACA International Board for two years from 2006 to 2008. He was President of ISACA Mumbai Chapter from 1998-2000. He is the recipient of ISACA's Harold Weiss Award for 2005, "Given to Recognize Dedication to the IS Audit, Control and Security Profession". He is currently Advisor to ISACA's India Task Force.

Kadam regularly writes articles on Information Security topics. He has written a number of articles about COBIT 5 and also co-authored a publication "Securing Sensitive Personal Data or Information under India's IT Act Using COBIT 5". He was a project coordinator and advisor for another publication from ISACA - "RBI Guidelines Mapping with COBIT5".

He holds BE (Mechanical), AMIE (Electronics and Telecommunication) and Master in Financial Management (MFM) degrees and a string of information security certificates that he also teaches.

INNOVATIVE IDEAS

Lokanathan Nadar leads the Infrastructure and Agricultural business vertical at Arthveda. He has over 12 years of advising the government bodies and private sector players in the area of infrastructure, SEZs, power, industrial development and roads and transportation.

Nadar joined ArthVeda from Wadhawan Group, where he was CEO – Infrastructure & SEZ. He was heading both the development of Pavana Multi Product SEZ and other infrastructure initiatives of the group. Nadar's vast and in-depth experience in the core

infrastructure sector in the areas of project development and construction, conceptualisation, business development, marketing and identification of new business opportunities gives him a well-seasoned perspective that perfectly complements ArthVeda's needs as a rapidly growing company focused on introducing innovative funds to generate high IRRs.

Nadar has earlier worked with Sterling SEZ & Infrastructure as Chief Operating Officer and prior to that he worked with Infrastructure Leasing & Financial Services (IL&FS). He is a trained Chartered Accountant and Company Secretary.

A SELF-STARTER

Having over 15 years of professional experience, **Rahul Rao**, CEO, Lalitanjali Group, has the ability to wear multiple hats due to his cross functional experience in strategic business planning, profit centre operations, business development, corporate affairs, overall operations, and P&L responsibility.

An MBA in HR, he started his career in the banking sector in Mumbai for over five years which was followed by a stint at Cartogramix, a diversified group which is into project funding and infrastructures where he played an active role in HR-Admin and Marketing operations. He then joined National Bank of Dubai in UAE to head Project Funding, followed by becoming a Director at Geotage Sn. Bhd, a Malaysian company in infrastructure resources management into cross border ventures, PPP, BOO and BOTs.

Prior to starting Lalitanjali Group in 2012, he relocated to Visakhapatnam to join the Ramky Group to Head the Development Division, where he oversaw industrial park development, corporate affairs, strategy planning, key account management, business development, communications, legal cell, civil, estates and media.

A self-starter with keen interest in large scale and greenfield projects, his core strength lies in his ability to source, identify potential business and ensure resource management simultaneously.
